

# ISL World Cruise Fleet Register 2005/2006

- ⚓ Entries are based on Information up to July 2005.
- ⚓ Included are all seagoing passenger vessels of 1000 grt/gt and over, with 100 or more berths year-round or temporary engaged in cruising.

# ISL World Cruise Fleet Register

The following list includes all seagoing passenger vessels of 1000 grt/gt and over, with 100 or more berths year-round or temporary engaged in cruising. Not included are cargo vessels on cargo liner services, car ferries and passenger ferries on ferry services and private yachts.

There are 263 vessels (11.544 mill gt) actively trading 2005 or planned to be commissioned until December 2005. Some modern ships in lay-up are included. This is caused by temporary capacity reductions and bankruptcies of operators whose ships will, most probably, come back to service next year. Old ships in permanent lay-up are still excluded. Additionally, a few vessels making short cruises were excluded too, because they are in fact floating casinos making trips of less than one night.
